Aluminium Slat Privacy Systems

Our range of Aluminium Slat Screen Fencing offers the latest in architectural styling for your home. Our slats will not rust, warp or require repainting, and offer a cost effective alternative to high maintenance timber screens. The range comes with a 10 year warranty.

i

Slats come in a range of profiles and lengths

i

Our 20x10mm Centre Bars are used as centre backing supports to stabilise panel spans over 2400mm

i

Custom Panels, Sliding, Double & Pedestrian Gates are also available on request.

Suitable Usage

- Privacy Screening for patios, balconies and windows
- Horizontal panels and gates for brick pier front fencing
- Privacy and security between the house and side fences
- Hide amenities such as bins, air conditioners and water tanks
- Create a tidy and private storage area

Handy Hints

- Consult your local Council before deciding on your fencing requirements
- Check for all underground services. Simply Dial **1100** for more information
- Pool Safety standards require your gates open away from the pool and the latch post sits 300mm higher than all other posts

Available Colours

Our Slat Privacy fencing is available in any Colorbond equivalent powder coating colour from Interpon. These colour swatches are meant as a guide only

Satin Black

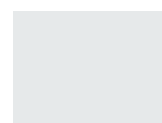

Primrose

Woodland Grey

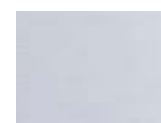

Paperbark

Surfmist

Deep Ocean

Silver Pearl

Ironstone

Care Instructions & Warranty:

Exposure to U.V. light, pollution, salt deposits and chemicals can affect the long term performance of the fencing coating if not removed with regular washing.

A regular monthly clean with a soft brush, warm water and mild detergent followed by a rinse of fresh water will maintain the finish of both powder coated, Colorbond® Steel and stainless steel fencing components and fulfil warranty conditions.
